Mr. Harold Wiesberg
Hyiattstown,
Maryland

Dear Mr. Wiesberg,

I did not read the 26 or so volumns of the Warren report but I have a question that you might answer for me.

Does the Warren investigation mention that when Oswald was shot, one radio reporter on national coverage said "The man who shot Oswald is Jack Ruby-the man the reporters have to see to arrange an interview with the Chief of Police. He has the run of the police station in Dallas and can get through locked doors where we can't."

If you are not able to answer me,please drop me a card so I will know that you recieved this letter.

very truly yours,

Don Roquemore
